

Donald Trump Advisers Propose Privatizing Native American Reservation

New York, December 10 (RHC)-- Advisers to U.S. President-elect Donald Trump told Reuters they are proposing to privatize Native American reservations in order to further accelerate the extraction of oil, gas and other minerals.

In response, Tom Goldtooth, head of the Indigenous Environmental Network, said: "Our spiritual leaders are opposed to the privatization of our lands, which means the commoditization of the nature, water, air we hold sacred. Privatization has been the goal since colonization—to strip Native Nations of their sovereignty."
