

# *Cuban Medication Heberprot-P Enters European Market*

---

**Havana, May 24 (RHC)--** Slovakian patients will begin shortly to benefit from Heberprot-P for the treatment of diabetic foot ulcers. This way, Slovakia will become the first member of the European Union where the Cuban medication will be marketed and sold.

**In statements to the press, Slovakian Health Minister Boris Bánovský said that more than 8,000 Slovaks suffer from foot ulcers -- a common complication in diabetic patients.**

**He stressed that the aim is to offer patients the best possible treatment with a medicine of proven efficacy.**
