

Evo Morales Stresses Significance of Nationalization Policy in Bolivia

La Paz, February 8 (RHC) Bolivian President Evo Morales stressed the significance of the nationalizations implemented under his government and said that such initiative were the base for multi-million investment projects.

Speaking from the Oruro Department, Morales recalled that the nationalization of a Metal Company in 2007 allowed the modernization of that industry as he referred to the setting up of new equipment in the facility.

The head of state recalled the benefits of the communication satellite launched by Bolivia and he announced another satellite project that will allow Bolivia to identify natural resources. He also announced the construction of a sports center in Oruro with capacity for 21,000 people.
