

New Legal Rules on Cuban Enterprise System Come into Force

Havana, December 13 (RHC-Granma)-- The Official Gazette of Cuba on Wednesday published a series of regulations that advance the improvement of the business system and provide companies with greater autonomy.

A Decree Law and three Decrees are the result of the gradual process of transformations in the Cuban business system, which began in 2011 after the Sixth Congress of the Communist Party of Cuba.

The new norms were elaborated in correspondence with the policies approved for the update of the Cuban economic and social model.
