

Ernesto García Peña opens exhibit in Old Havana

The art gallery of Old Havana's Rubén Martínez Villena library will be the venue of an exhibition titled *El alma desnuda* (The Naked Soul) by renowned Cuban artist, Ernesto García Peña.

The exhibit's opening is scheduled for February 26th at 5:00 p.m., including drawings and paintings specially made on the occasion of Saint Valentine's Day. Sensual and translucent forms, full of passion and pureness, make up the exhibition, characterized by lines and drawings reigning over forms, bodies and luminous spaces.
