

Polish mayor bans annual far-right march

Warsaw, November 9 (RHC)-- In Poland, the mayor of Warsaw is banning this year's annual march of far-right groups. The march, which ostensibly celebrates Poland's independence, was attended by 60,000 people last year, with participants chanting slogans including "F*** off with the refugees" and "Pure Poland, white Poland."

The march organizers vowed to go ahead with the event this Sunday, in defiance of the ban.
