

Granma Newspaper Releases Photos of Fidel Castro's Meeting with Vietnamese Prime Minister

Havana, March 28 (RHC) – Granma newspaper, in its Friday edition, published several photographs of the meeting of Cuban Revolution leader Fidel Castro and Vietnamese Prime Minister Nguyen Tan Dung.

A previous report by the newspaper of the Cuban Communist Party had said Tan Dung and Fidel had recalled several instances of the historical relationship between Vietnam and Cuba and also discussed issues related to climate change and current world affairs.

It said Fidel briefed the Vietnamese Premier about the experiences on Cuban research studies that can increase food production and, being free of genetic manipulation, may prevent serious consequences for human health.
