

Cuba and China hold talks on cyberspace administration

Havana, November 1 (RHC)-- Jorge Luis Perdomo, Cuban Minister of Communications, held a friendly meeting with Liu Liehong, Chinese Vice Minister of Cyberspace Administration.

Perdomo heads the official delegation to attend the 2nd International Import Exhibition in China, Cubaminrex website reported.

The meeting reaffirmed the close cooperation ties between both countries in the field of cybersecurity in the international arena and mutual support in this field.

It was also an opportunity to review other issues of bilateral interest, such as progress in the execution of different projects and the participation of high-level delegations in international events hosted by both sides.

As part of this effort, a delegation from the Administration of Cyberspace will visit Cuba in November to be accompanied by businessmen from the sector.
