

Over 100 U.S. lawmakers call on Trump to fire senior adviser for racist ties

Washington, November 23 (RHC)-- In the U.S., more than 100 members of Congress called Thursday for President Trump to fire senior adviser Stephen Miller after e-mails emerged detailing Miller's long-time support for white nationalism, far-right extremist ideas and racist conspiracy theories.

In a letter to the White House, the lawmakers write: "Given Mr. Miller's role in shaping immigration policy for your administration, his documented dedication to extremist, anti-immigrant ideology and conspiracy-mongering is disqualifying."
