Spanish activists block vessel from carrying weapons for Yemen war

Madrid, December 11 (RHC)-- In Spain, peace activists gathered at the Sagunto Port in the region of Valencia early Tuesday morning to protest against the docking of a Saudi vessel that may be carrying weapons to be used in Yemen.

The vessel arrived to the port as a group of activists rallied with signs that read "Stop the war" and "The war begins here."

The war in Yemen has killed over 100,000 people and created the world's worst humanitarian crisis.
