

United Nations postpones COP26 Climate Summit over Coronavirus fears

United Nations, April 3 (RHC)-- The United Nations has indefinitely postponed the COP26 climate summit scheduled for Glasgow, Scotland, in November over coronavirus fears.

The Climate Action Network responded in a statement: “Let us remember this pandemic is taking place against the backdrop of an ecological crisis — one that threatens the lives of millions of people and will exacerbate the risks we already face. Just like a fast-spreading virus, climate change has no regard for borders. If one country is not safe, no country is safe.”
