

Door-to-door COVID19 screening continues in Cuba

Havana, April 14 (RHC)—The number of cases of COVID19 now stands at 766 after 40 new cases were diagnosed on Monday.

Of the grand total 132 patients have fully recovered, and 599 remain hospitalized in stable condition; 9 are in critical; and 3 serious; in serious conditions.

Since the first cases were reported on the island on March 11, 21 COVID patients have died, and two have been evacuated.

2501 remain in isolation; 7167 followed at home in primary care, and door-to-door screening by family doctors, nurses and med students continue island wide, covering so far some 9 million people.

This information was provided during the COVID19 UPDATE media briefing by Dr. Francisco Duran, National Director of Epidemiology at the Ministry of Public Health. His introductory remarks to the briefing are accessible by clicking [here](#).
