

EU warns pandemic economic recession will be worst in history

Brussels, May 8 (RHC)-- In Brussels, European Union leaders warn the 27-nation bloc is facing the worst recession in its history, with forecasters projecting a 7.4% drop in economic output.

The dire news came as Germany began a phased reopening of its economy, with schools, day care centers and some restaurants set to reopen with social distancing rules in effect.

In Italy, COVID-19 deaths have hit a nearly two-month low, while France is set to end its lockdown next Monday, May 11th.
