

Spain increases coronavirus death toll to 28,313

Madrid, June 20 (RHC)-- Spain reported on Friday a total of 28,313 coronavirus deaths as of Thursday, after adjusting its database to avoid duplications and errors, a health ministry official said.

The death toll had not been updated since June 7, when Spain reported 27,136 deaths, while the country was implementing a new methodology for logging deaths and cases.
