

Philippines confirms nearly 4,000 new coronavirus cases, highest single-day increase

Manila, July 31 (RHC)-- The Philippine government's COVID-19 task force confirmed 3,954 new infections, the country's largest single-day increase in new coronavirus cases.

The information on the surge in infections, which was a sharp increase from the record 2,539 cases confirmed on July 8, was mentioned in a regular circular issued by the inter-agency task force.
