

U.S. Supreme Court rules Trump can continue with border wall construction

Washington, August 4 (RHC)-- In a 5-4 ruling, the U.S. Supreme Court said President Donald Trump can go ahead with building his U.S.-Mexico border wall, using \$2.5 billion in military funds, while the legal battle to stop the construction continues.

The Sierra Club and other groups argue Trump circumvented Congress to divert the funds and that the border wall will cause irreparable environmental damage.
