

Cuba reports 66 new cases of COVID-19

Cuba's chief epidemiologist, Dr, Francisco Duran

Havana, September 30 (RHC)-- The National Director of Epidemiology of the Cuban Ministry of Public Health, Dr. Francisco Durán, reported 66 new cases of Covid19 during the last 24 hours for a total of 5,597 since the beginning of the epidemic.

During the daily media briefing on Wednesday, the specialist stated that 7,298 patients had been admitted to the island's isolation centers and hospitals by the close of yesterday, of which 580 were confirmed cases.

On Tuesday, the island's molecular laboratories tested 7 thousand 550 samples.

65 cases were Cuban, and one was a foreign resident on the island

Of the diagnosed cases on Tuesday, 40 were from Ciego de Avila, 14 were from Sancti Spiritus, and ten from Havana.
