Syrian media report fresh Israeli aggression near Damascus

Damascus, November 25 (RHC)-- Syrian state news agency SANA reported early on Wednesday two separate "aggressions" from the Israeli-occupied Golan Heights on the Arab country's south and outskirts of Damascus.

The airstrikes were near a village in the southern province of Quneitra, and in Jabal al Mane area near the town of Kiswa in Damascus province, according to SANA. The Syrian state news agency said the attacks caused only material damage.

Last week, Israeli warplanes targeted military sites belonging to resistance groups in the capital Damascus, killing several military personnel.

Israel frequently targets military positions inside Syria, especially those of the resistance movement Hezbollah which has played a key role in helping the Syrian army in its fight against foreign-backed terrorists.

The Arab country has been gripped by foreign-backed militancy since March 2011. The Syrian government says the Israeli regime and its Western and regional allies are aiding Takfiri terrorist groups that are wreaking havoc in the country.

Israel mostly keeps quiet about the attacks on Syrian territories which many view as knee-jerk reaction to Syrian government's increasing success in confronting terrorism in country.
