

Israel launches overnight airstrike against Gaza

Israel bombs Gaza in night-time attack.

Gaza City, December 27 (RHC)-- Israeli warplanes have carried out a wide air raid targeting various positions in the besieged Gaza Strip in the early hours of Saturday. The Israeli airstrikes caused damages to hospitals, mosques and agricultural lands in the east of the strip and two civilians were reported injured.

Israel claimed the airstrikes were in response to rockets fired from Gaza. Resistance groups here stressed the Israeli army's crimes over Gaza and targeting civilians amount to violations of the international law.

Palestinian groups Israeli army should be held accountable for its crimes. Israeli occupation exacerbated the already dire condition Palestinians are living through especially amid the coronavirus pandemic.

The Israeli regime often targets the Gaza Strip citing rocket fire from the enclave. Palestinians here say that Israeli army violated all the international laws by damaging hospitals and targeting civilians. They insist the resistance is their only way to respond to these Israeli violations.
