Condenamos la agresión de EEUU contra Cuba

Condenamos la agresión de EEUU contra Cuba al incluirla en la lista de países terroristas

La Internacional Antiimperialista, en apego a los principios de respeto a la autodeterminación de los pueblos, y al derecho internacional, expresamos por este medio, nuestro profundo rechazo a la cruel medida adoptada por la administración norteamericana, contra la hermana República de Cuba, al incluirla en el infame listado de países patrocinadores del terrorismo.

Condenamos enérgicamente la pretensión imperial de Estados Unidos de mantenerse como policía del mundo, y su auto designación como juez unilateral que fabrica listas a la medida de sus ya conocidos y voraces intereses. Esa política injerencista y colonial, impuesta por Washington y su insaciable maquinaria guerranista ya ha provocado centenares de miles de muertos en diferentes países del mundo y en América Latina.

El bloqueo que mantienen contra la Cuba soberana, de más de medio siglo, es criminal, inhumano y genocida. A eso debemos agregar la total inmundicia imperial a la hora de incluir a Cuba en una lista macabra para seguir justificando el bloqueo, sin importar el drama que provocan contra miles de niños, mujeres y adultos mayores, así como las pérdidas millonarias y el grave deterioro

El bloqueo debe terminar ya; para que Cuba siga adelante, los agradecemos nos solidarizamos eternamente.

Tegucigalpa, February 7 (RHC) The Anti-Imperialist International, AI, condemned Cuba's inclusion on the list of countries that promote terrorism.

A statement posted on Twitter says that in adherence to the principles of respect and self-determination of peoples and international law, the AI expressed its rejection of the measure adopted on January 11 by the State Department, by the previous U.S. administration and described it as cruel.

"We strongly condemn Washington's imperial pretension to maintain itself as the world's policeman and its self-appointment as a unilateral judge that manufactures lists to suit its voracious interests," says the text signed by former Honduran President José Manuel Zelaya and Galician politician Lois Pérez Loira.

It recalls that this interference policy has already caused hundreds of thousands of deaths in Latin America and the world.

The text refers to Washington's economic, financial and commercial blockade on the Caribbean island for six decades as criminal, inhuman, and genocidal.

It is imperative that the new U.S. administration presided over by Joe Biden proceeds without delay to rectify this shameful act of political piracy, urges the IA text.

Out of respect for its people, the United States should abandon its arrogance of supremacy over the other countries of the planet, beginning with its abominable aggression against Cuba, the document states,

The blockade must end now so that Cuba can move forward; those of us who are grateful are in eternal solidarity, it urges at the end.

The proposal for creating the Anti-imperialist International was formulated by Zelaya in Mexico at the end of November within the framework of the XXIV International Seminar of the Workers Party, left.
