

Cuba reports 772 new COVID-19 infections in 24 hours

Cuba reports 772 new COVID-19 infections in 24 hours

Havana, March 10 (RHC)-- Cuba's National Director of Epidemiology, Dr. Francisco Duran, reported 772 new COVID-19 infections and five deaths from the coronavirus over the past 24 hours.

During his Wednesday morning press briefing, Dr. Duran said that the rate of positive cases of COVID is down from yesterday's report, but still very high. He was reporting on the data available up to 12 midnight last night, Tuesday, March 7.
