Iran accuses Israel of “nuclear terrorism” over sabotage at Natanz nuclear plant

Tehran, April 12 (RHC)-- Iran says it will “take revenge” for what it called “nuclear terrorism” after an attack triggered a blackout at the Natanz nuclear facility Sunday.

Iran blamed Israel for the attack, which came amid new efforts by Iran to speed up its enrichment of uranium.

Reports appear to support Israel's involvement, which Israel has not denied. This comes as Iran, the U.S. and other parties are negotiating in Vienna over a possible relaunch of the 2015 Iran nuclear deal, from which former President Trump unilaterally withdrew in 2018.
