

FBI agents raid Rudy Giuliani's home and office

New York, April 30 (RHC)-- In the U.S., FBI agents have raided the New York home and office of Rudy Giuliani and seized his electronic devices as part of a probe into the attorney's dealings with Ukraine.

Rudy Giuliani is the former mayor of New York and the personal attorney of Donald Trump. The FBI also seized the cellphone of conservative attorney Victoria Toensing, who has worked closely with Giuliani.

Giuliani has been under scrutiny by Manhattan federal prosecutors since early 2019. The inquiry has explored whether Giuliani may have been engaged in undisclosed foreign lobbying for Ukrainian officials when he sought the ouster of the U.S. ambassador to Ukraine as well as an investigation into the Bidens for his own personal benefit at the same time he was pursuing those efforts as Donald Trump's attorney.
