Pro-Palestinian demonstration in London, calling for an end to Israeli occupation

Gaza City, May 11 (RHC)-- The Democratic Front for Liberation of Palestine held a press conference warning that Israeli regime will face retaliatory measures over its ongoing attacks in Jerusalem al-Quds.

Palestinian resistance in the Gaza Strip marked Saturday as a day of popular rage along the border fence where the resistance announced the return of the military clashes with Israeli army and firing incendiary balloons toward Israel in response to the crimes committed in Jerusalem al-Quds.

In a recent speech, resistance leaders warned that Israel should bear the responsibility over the recent attacks against Palestinian residents in occupied East Jerusalem, al-Quds saying the resistance is ready to defend Jerusalem with all means.

Palestinians called on the international community and all Muslim nations to support Palestinians and do actions to stop the Israeli violations of Palestinians and the ongoing attacks of the holy places in Jerusalem Al Quds.

Palestinian worshipers clashed with Israeli regime late Friday at Al-Aqsa mosque, in an escalation of weeks of violence in Jerusalem. Palestinian resistance groups here hold the Israeli regime responsible for the attacks against Palestinians in Jerusalem al-Quds, announcing they are ready to give crushing response.
