

Gaza death toll jumps to 83 as Israeli air raids intensify

Israeli airstrikes on Gaza City

Gaza City, May 13 (RHC)-- Israeli fighter jets have attacked high-rise buildings and other targets in the Gaza Strip as Palestinians in the besieged enclave woke up on Thursday to mark the Eid al-Fitr religious holiday under relentless aerial bombardment.

Since the Israeli offensive began late on Monday, Gaza's health ministry says at least 83 people, including 17 children, have been killed. More than 480 others have been wounded.

At least six Israelis have also been killed. The Israeli army said hundreds of rockets have been fired from Gaza towards various locations in Israel and they have added reinforcements near the enclave's eastern lands.

There have also been more violent confrontations between Jewish Israelis and Palestinian citizens of Israel in several cities inside Israel.
