

Cuba reports 7,732 new Covid-19 cases, 68 deaths

Havana, July 24 (RHC)-- The Cuban Ministry of Public Health reported on Saturday 7,732 new cases of SARS-CoV-2 and 68 deaths in the last hours.

The Caribbean island accumulates 324,115 diagnosed with the virus since March 11, 2020, and 2,271 deaths, the head of Epidemiology of the Minsap, Francisco Durán, stated in his regular tv briefing.

As of midnight, 39,521 active cases were hospitalized.

The territories with the highest infection rate were Havana with 1394 cases, Matanzas with 1358, Santiago 714, and Guantanamo with 632 cases.
