

Brazilian Senators back report accusing Bolsonaro of crimes against humanity for pandemic response

In Brazil, a Senate committee has approved a report calling for criminal charges, including crimes against humanity, against far-right President Jair Bolsonaro

Brasilia, October 27 (RHC)-- In Brazil, a Senate committee has approved a report calling for criminal charges, including crimes against humanity, against far-right President Jair Bolsonaro over his deadly mishandling of the pandemic.

The Senate report also accuses dozens of other officials and two companies of committing crimes.

Brazil has reported over 600,000 COVID fatalities, the second-highest official death toll after the United States.
