

Gaza Hospitals Overrun with Victims; Bombing Exceeds 2012 Israeli Assault

Gaza City, July 10 (RHC)-- A Palestinian journalist was killed in central Gaza after his car was bombed. Video footage shows it had been marked as a media vehicle.

The Israeli military says it has dropped 800 tonnes of bombs on 750 targets throughout Gaza, more than during its eight-day assault in late 2012.

Hospitals in Gaza have been overwhelmed with victims and are running low on basic supplies. And Egypt has opened up the Rafah border crossing to evacuate some of the wounded.
