

MSMEs continue to grow in Cuba

Havana, Jan 6 (RHC) The Ministry of Economy and Planning approved another 86 new applications for the creation of economic actors, of which 84 are private MSMEs, and two are non-agricultural cooperatives. These are the first applications to be given the green light in 2022.

48 are reconversions of pre-existing businesses, and 39 are new ventures in terms of origin. It is estimated that these economic actors will generate 1,353 new jobs in the economy, said the central government agency in a press release.
