Global conflicts displace record 100 million

United Nations, May 25 (RHC)-- The United Nations says the number of people displaced by war, conflict and human rights abuses has topped 100 million for the first time.

United Nations High Commissioner for Refugees Filippo Grandi announced the grim milestone as he met with Rohingya refugees who've fled violence and government persecution in Burma.

Filippo Grandi told reporters: "Much as we're all focusing on Ukraine as a catastrophic emergency, we must not forget that there's other critical situations in the world that need attention and resources."
