

India warns its citizens in Canada of increase in hate crimes

Ministry of External Affairs
Government of India

Advisory for Indian Nationals and Students in Canada

There has been a sharp increase in incidents of hate violence and anti-India activities in Canada. The Ministry of External Affairs and our High Commission/Consulates General have taken up these incidents with the Canadian authorities and requested them to investigate the said crimes and take appropriate action. Unfortunately, perpetrators of these crimes have not been brought to justice in Canada.

In view of the increasing incidences of crimes as mentioned above, Indian nationals and students from India in Canada who are proceeding to Canada for travel/education are advised to exercise caution and remain vigilant.

New Delhi, September 24 (RHC)-- The Indian government has advised its nationals in Canada to exercise caution, citing “a sharp increase in incidents of hate crimes, sectarian violence and anti-India activities” in the North American country.

In an advisory issued on Friday, the Indian foreign ministry asked the Indians in Canada to “remain vigilant.” “In view of the increasing incidences of crimes ... Indian nationals and students from India in Canada and those proceeding to Canada for travel/education are advised to exercise due caution,” it said.

The advisory said New Delhi has requested the Canadian authorities to investigate the crimes and take appropriate action. “The perpetrators of these crimes have not been brought to justice so far in Canada,” it said.

New Delhi urged its nationals – workers and students – in Canada to register with the Indian mission in Ottawa or consulates in Toronto and Vancouver.

Indian media reports on Friday said the advisory followed reports of a “referendum” purportedly organised by a faction among the Sikhs in Canada, demanding a separate Khalistan nation in the northern Indian state of Punjab.

The separatist movement was at its peak in the 1980s. In June 1984, New Delhi sent troops to the Golden Temple – the community’s holiest site in Punjab’s Amritsar city – in a military operation targeting pro-Khalistan leaders. The Operation Blue Star, as the army assault was known, killed hundreds.

In October that year, former Indian Prime Minister Indira Gandhi was assassinated by two of her Sikh bodyguards, an event that led to nationwide anti-Sikh riots in which thousands were killed.

Today, Sikhs form a large chunk of 1.6 million Indian diaspora in Canada – more than 3 percent of its population. Canada has 17 parliamentarians and three cabinet ministers of Indian origin, including defence minister Anita Anand, the Hindustan Times newspaper said. India has repeatedly raised the issue of Canada allowing the Khalistani separatist groups to operate on its land.

New Delhi believes the Justin Trudeau government has not done enough to address its concerns about the activities of pro-Khalistan elements in Canada, the Hindustan Times said. India’s foreign ministry spokesman Arindam Bagchi on Thursday called the referendum in Canada a “farcical exercise held by extremist and radical elements,” according to a report by the NDTV network.

Bagchi said it was “deeply objectionable” that such an exercise was allowed in a friendly country. In response, the Canadian government said it respects the sovereignty and territorial integrity of India and will not recognise the so-called referendum, according to Indian media reports.
