

Israeli raid on Jenin refugee camp kills four Palestinians and wounds dozens

Ramallah, October 3 (RHC)-- In the occupied West Bank, Israeli forces killed four Palestinians and wounded more than 44 others during a raid on the Jenin refugee camp. It's the latest in a series of near-daily raids that the Israeli military has been carrying out in Palestinian communities.

Three of the four men who were killed were members of the armed group al-Aqsa Martyrs' Brigade, according to reports from Ramallah. Atta Abu Rmeileh, a Fattah leader in Jenin, told reporters: "They were deliberately assassinated by Israeli occupation forces who stood on rooftops in the upper areas of the Jenin camp and targeted anything that moved."
