Havana, December 20 (RHC)-- The game between the teams Tabacaleros and Portuarios appears among the most attractive of the particular sub-series that will begin today, in the continuation of the 1st Elite Baseball League, which is led by Agricultores.

After Monday's transfer date and rest, the Tabacaleros appear in second place in the tournament, with 24 wins and 21 setbacks, behind Agricultores (29-16) and ahead of Portuarios (23-23), who share third place with Centrales (23-23).

For their part, the Ganaderos (18-26) and Cafetaleros (18-26) teams are in last place in the standings and everything seems to indicate that both will be out of the playoffs.

Another element that calls the attention of the encounter between Tabacaleros and Portuarios, with scenario in the Cristóbal Labra, of the Isle of Youth, is that both swept this weekend the Ganaderos and the Central, in that order, and that they present favorable streaks of three and four consecutive successes, respectively, according to the site www.beisbolcubano.cu.

In addition, the difference between the Tabacaleros and the Portuarios is only one and a half games, which could make the fight for second place in the standings even tighter, with Agricultores comfortably five games ahead of its closest rival.

If Portuarios and Centrales, who will play against Cafetaleros at the Augusto César Sandino stadium in Villa Clara, win, then the situation will become even closer.

In the other game scheduled for Tuesday, the favorite Agricultores and Ganadores will meet at the José Antonio Huelga stadium in Sancti Spíritus.
