

Israel endorses plan to build new illegal settlement near Gaza Strip

Tel Aviv, February 6 (RHC)-- The Israeli regime has approved the construction of a new illegal settlement near the border with the besieged Gaza Strip, pressing ahead with its illegal settlement expansion activities across the Palestinian territories despite international outcry.

“In cooperation with the Minister of Construction and Housing, Yitzhak Goldknopf, we decided today during a cabinet session to build a new settlement close to the Gaza Strip,” Israeli Prime Minister Benjamin Netanyahu tweeted on Sunday. Netanyahu claimed that “the establishment of the new [illegal] settlement is another proof of the strength of Israel.”

The Israeli public broadcaster Kan later reported that Israeli minister of military affairs Yoav Gallant had welcomed the idea of constructing new settler units in close proximity to the besieged Palestinian enclave.

“Construction of the new settlement is a practical realization of the Zionist vision. Ongoing settlement construction activities in the Negev region relay the message that Israel is resolute to press ahead with its

plans in the face of the existing threats,” Gallant said.

The development comes days after Israeli officials gave the green light for plans to build nearly 1,200 units as well as other structures for commercial and public purposes on confiscated Palestinian lands in the neighborhoods of al-Thuri, Jabel al-Mukaber and Sur Baher, as well as in the illegal settlements of Kiryat HaYovel, Arnona and Katamonim.

Emboldened by former U.S. president Donald Trump’s all-out support, Israel has stepped up its illegal settlement construction activities in defiance of United Nations Security Council Resolution 2334, which pronounced settlements in the West Bank and East al-Quds “a flagrant violation under international law.”

All Israeli settlements are illegal under international law. The UN Security Council has condemned Israel’s settlement activities in the occupied territories in several resolutions.
