

Cuban representative highlighted the importance of World Forum in Argentina

President of the Cuban Association of the United Nations

Havana, March 25 (RHC) The president of the Cuban Association of the United Nations, Norma Goicochea, highlighted the relevance of the 3rd World Forum on Human Rights that brought together more than 21,000 people from 98 countries in Buenos Aires to discuss the situation in Latin America and the world.

During the discussions, the members of the Forum analyzed neoliberalism's negative impact on democracy.

Goicochea explained that the manipulation and politicization of processes against social leaders in the region is a major concern.

The Cuban representative indicated that the event was a propitious space to condemn the attempts to deny human rights.

The Forum was essential to identify Latin America's challenges and the need to continue building public power.
