

Finland joins NATO on Tuesday

Finland will join NATO on April 4

Havana, April 3 (RHC) Finland will officially become a member of the North Atlantic Treaty Organization (NATO) on April 4, the country's Presidency announced on Monday.

"The President of the Republic of Finland, Sauli Niinisto, will travel to Brussels and attend an accession ceremony at NATO headquarters," a statement read.

On March 31, the Secretary General of the Atlantic Alliance, Jens Stoltenberg, declared that the Nordic country had completed the "ratification process by the member countries of the bloc." The incorporation of Helsinki became possible after the Turkish Parliament, last Thursday, ratified the accession protocol. (Source: RT)
