

El Salvador's feat highlighted for the Central Caribbean Games

San Salvador-2023

San Salvador, June 5 (PL) - The president of Centro Caribe Sports, Luis Mejía, highlighted El Salvador's feat in fulfilling the preparations to inaugurate the XXIV Central American and Caribbean Games of San Salvador 2023, on date.

After touring the facilities for the athletic competition, the executive did not hide his satisfaction. "El Salvador simply did a feat," he said, joining other executives who described the performance of the so-called "Thumbelina of the Americas" as a "heroic deed".

Some doubted that the Salvadorans would arrive on time for the opening date, but Mejía noted that the Games open on the 23rd with three sports starting on the 21st and the delegations begin arriving on the 18th to the Central American and Caribbean village.

I am extremely satisfied, very happy to see the dynamics, the organization and the final stage of the handover of the Central American Village and the sports facilities every time I come, this is the fifth time, he said.

This is the final supervision tour and I can tell you that we will be ready for the inauguration, said Mejía, who was accompanied by Dinora Acevedo, general director of the San Salvador 2023 Organizing Committee.
