

20 athletes' rosters for Elite Baseball League made official

Havana, September 19 (ACN) -- The National Baseball Commission made official the list of the six teams that will participate in the II Cuban Elite League that will begin on November 7.

In previous days, each qualified team announced its 20 players, pending the application of 12 reinforcements that will take place on September 21 in a radio program.

Training is expected to officially begin on September 25 and there is the possibility of some other adjustment in the payrolls due to force majeure, especially due to contracts that may be signed for the winter leagues in the region.
