

Israeli war machine continues to kill thousands of Palestinians

Gaza City, October 20 (RHC)-- Keeping up the occupying regime's ongoing indiscriminate onslaught against the Gaza Strip, the Israeli war machine has continued to kill thousands across the besieged Palestinian territory.

Israel has been raining bombs on the coastal sliver for the past 12 days since Gaza-based resistance movements of Hamas and Islamic Jihad launched Operation al-Aqsa Storm against the regime in response to its campaign of aggression, violation, and bloodshed against Palestinians. Around 3,500 people have died and over 12,000 others been injured so far as a result of the warfare.

One of the most recent of the deadly Israeli attacks came on Wednesday, with the regime targeting a house in the city of Deir al-Balah in central Gaza, the official Palestinian Wafa news agency reported. The strike killed 10 people and wounded 22 others. "Search efforts are still underway to rescue around 18 more from under the rubble," the agency said.

Citing medical sources, the report also said that continued Israeli shellings of homes and other structures in the city of Khan Yunis in southern Gaza had killed another 31 people and injured 82 others. The bloodshed followed the regime's killing of more than 500 people by hitting al-Ahli Baptist Hospital in Gaza City on Tuesday. Thousands of Palestinians were present at the facility when the attack took place.

Major cities across the world have also turned into the scene of angry demonstrations against Tel Aviv's campaign of bloodshed and destruction against the Palestinian territory.
