

More killings as Israel targets children's hospital in Gaza

Gaza City, November 6 (RHC)-- Israel has targeted a children's hospital in Gaza as the regime's brutal aggression on the besieged strip has entered its 31st day. Palestinian sources said the Israeli army hit Al-Rantisi Children's Hospital in the early hours of Monday, leaving an unspecified number of people killed and injured.

Israeli airstrikes on Gaza have repeatedly targeted hospitals, residential buildings, mosques, and churches. Under the Geneva Convention, attacks on hospitals are strictly prohibited.

The Palestinian resistance movement Hamas urged the United Nations secretary-general to form an international committee to visit hospitals in the besieged strip to counter Israel's "false" claims that they are used as launch pads for anti-Israel operations.

Hamas noted in a statement that the claims are aimed to "justify" Israel's attacks on hospitals in Gaza.

According to the statement, the Israeli army targeted more than 100 hospitals and medical centers since the start of the aggression which rendered 16 hospitals out of service. On October 17, hundreds of civilians were killed and injured by Israeli airstrikes on al-Ahli Arab Hospital in Gaza City. The attack has been condemned as an act of genocide by many governments around the world.

Several hospitals in Gaza City have become refuges for Palestinians hoping to be spared Israeli bombardments, which began early in October.?
