

Israeli drone attack on Lebanon kills grandmother and four children

Image not found or type unknown

Beirut, November 6 (RHC)-- Lebanon's caretaker prime minister, Najib Mikati, said his government will file a complaint to the United Nations Security Council after an Israeli drone attack Sunday evening killed a grandmother and three children.

The strike came as Israeli and Hezbollah forces have been engaged in skirmishes along the border over the past month.

Hezbollah fired rockets into northern Israel in response. The group has vowed to retaliate against Israel if it continues to kill civilians in Lebanon.
