

Pakistan sends second humanitarian aid package for Gaza

Islamabad, November 8 (RHC)-- In response to the ongoing Israeli aggression against Gaza, Pakistan is sending its second consignment of relief goods for Palestine. Pakistan is sending the aid package for the Gaza strip amid a surge of rallies across the country in solidarity with the Palestinian people.

In response to the ongoing crisis in Gaza, Pakistani citizens are raising their voices to demand an end to the war crimes being committed in the region. Pakistani influencers and public figures call for a boycott of popular international brands, which are deemed to be supportive of Israel and the United States and thus, by extension, complicit in the genocide in Gaza.

Like people in many other parts of the world, Pakistanis are also worried about Israel's attacks on civilians in Gaza and demand an immediate end to the onslaught.

Meanwhile, the Government of Pakistan is responding to the ongoing Israeli aggression by sending its second consignment of relief goods including hygiene kits, medicines and food packages.

Human rights activist Tahira Abdulla stated: "Israel would never be able to carry out its inhumanity, and its barbarity, and its atrocities, unless it was helped, and funded, and supported, and weaponized, by America, UK, European Union. I want to condemn the Organization of Islamic Conference for being complicit, silent, and inactive."
