

*Former UN human rights official
says Israel is involved in ethnic
cleansing*

New York, November 11 (RHC)-- Craig Mokhiber, the United Nations' former top human rights official in New York, condemned Israel's so-called humanitarian corridors, writing: "Four-hour pauses between

massacres are not 'humanitarian.' They are merely managed ethnic cleansing.

"Saying to caged victims> 'Go ahead, I'll give you a head start before I come to kill you again' is a cruel and cynical charade, for which the perpetrators must be held to account."

The former UN official, Craig Mokhiber, resigned last week over the inability of the UN or any other humanitarian organization to stop the genocide.
