Ramallah, December 28 (RHC)-- Israel's military has launched its most intense raids in the occupied West Bank since Israel began its assault on the Gaza Strip following Hamas's attack on October 7th.

Overnight, Israeli forces raided 10 cities, including Ramallah, where at least one Palestinian was shot and killed and 15 others wounded during confrontations with Israeli soldiers.

The Palestine Monetary Authority says Israeli troops targeted at least six money exchange companies, seizing over \$2 million worth of funds.

Meanwhile, disturbing details are emerging about an Israeli drone strike on the Nur Shams refugee camp that killed six Palestinians. The head of the Tulkarem Medical Syndicate reports Israeli soldiers stopped and boarded ambulances carrying people injured in the bombing. One patient was reportedly stabbed in the neck, while two others were removed from ambulances and severely beaten.
