Havana, February 6 (RHC) -- Cuba's Foreign Minister, Bruno Rodriguez, expressed on Monday through the social network X his wishes for the speedy recovery of British King Charles III, diagnosed with cancer.

Buckingham Palace informed on Monday that medical opinion, without further details, days after the monarch was admitted to a private hospital in London for a scheduled operation, after being diagnosed with an enlarged prostate, although it reported that the disease does not involve that gland.

After a check-up, Charles III, 75 years old, cancelled his schedule to rest before undergoing surgery (Source: Prensa Latina).
