

Cuba marches in favor of Palestine and against Israeli genocide

Havana, March 2 (RHC)-- Summoned by the Union of Young Communists (UJC) and other social organizations, Cubans are staging massive acts of solidarity with Palestine and to demand an end to the Israeli genocide this Saturday across the country.

The mobilizations in the Caribbean nation, as in the whole world, are taking place in view of the announcement of Israel's new offensive against the city of Rafah, home to more than one million

Palestinians.

From early hours, especially in the provincial capitals, and in the case of Havana, in the Anti-imperialist Tribune José Martí, Cubans are called to raise their voices for the Palestinian people.

President Miguel Díaz-Canel assured the day before that Cuba will never be indifferent to crime and this Saturday Cubans will march for peace, together with the peoples who fight for a better world.

Enough brutality, enough abuse, enough impunity, stressed the head of state in a video posted on his account on the social network X.

Díaz-Canel denounced that five months ago humanity witnessed with horror a new holocaust because the Gaza Strip, the largest open-air prison in the world, is turning into an extermination camp under the criminal and incessant bombardment ordered by Israel.

The President also called for an end to the hypocrisy of the United States, which vetoes cease-fire resolutions in the United Nations Security Council, while his government acts as an accomplice to barbarism with its unscrupulous and undemocratic exercise of the veto.

He denounced that Washington undermines peace and stability in the Middle East and by extension in the entire world.

Amid international rejection and in complicity with the United States, Israel killed more than 30 thousand Palestinians after 147 days of crimes, bombings, siege and genocide in the Gaza Strip. Cuba marches today in favor of Palestine and against Israeli genocide.
