

Israeli tanks push back into northern Gaza as warplanes hit Rafah

Rafah, April 18 (RHC)-- According to reports from the Gaza Strip, much of Rafah, like the rest of Gaza, is now rubble. Israeli air strikes have repeatedly targeted the area, levelling homes and killing thousands of Palestinians.

Tamam al-Handy, a displaced mother now seeking shelter in Rafah, told Al Jazeera that she fears Israeli forces will launch a ground invasion of the area where so many have fled to for safety.

“We are scared if an invasion takes place in Rafah. Where can we go?” she said.
