Madrid, April 22 (RHC)-- Thousands of pro-Palestine demonstrators marched through the streets of Madrid on Sunday to demand an end to Israel's war on Gaza, while holding banners calling on the Spanish government to halt arms sales to Israel. Activists also called for an immediate ceasefire and the

release of Palestinian prisoners held in Israeli jails.

“You can stop selling arms to Israel, [and impose] economic boycott. Peacefully you can do many things to force ... Israel to change its attitude,” said protester Carlos Calamita.

A huge Palestinian flag and a balloon in the shape of a zeppelin with the slogan “End the arms trade with Israel” led the demonstration. “We demand that the government put an end to the arms trade with Israel. If European governments and the United States would stop selling arms to Israel in only three days, it would no longer have ammunition to kill the Palestinian civilian population,” pro-Palestinian activist said.

Israel launched its brutal onslaught on the Gaza Strip, targeting hospitals, residences, and houses of worship after Palestinian resistance movements launched a surprise attack, dubbed Operation al-Aqsa Storm, against the usurping regime on October 7, 2023.

At least 34,097 Palestinians have been killed, most of them women and children, and another 76,980 individuals sustained injuries in the regime’s genocidal war. More than 1.7 million people have been internally displaced during the war as well.
