

U.S. admits no aid from new pier has reached Gazans

Gaza City, May 22 (RHC)-- The Pentagon has admitted that none of the humanitarian aid brought in from a new U.S.-made pier in Gaza has actually been distributed to Palestinians. Observers have repeatedly asked the Biden administration for clarification, but there has been no response from the White House.

In Gaza, the official death toll from Israel's war has topped 35,600 as the humanitarian catastrophe intensifies. The United Nations has suspended all food distribution in the southern Gaza city of Rafah due to escalating Israeli attacks and a lack of supplies.
