

*Venezuelan foreign minister calls
to dismantle Israel's fascist
regime*

Caracas, May 27 (RHC)-- The Minister for Foreign Affairs of Venezuela, Yván Gil, affirmed that the fascist regime of Israel must be dismantled immediately and the historical rights of the Palestinian people must be restored.

In a message posted on his X social network account, the senior diplomat emphasized that the “genocide must stop now.” The Venezuelan foreign minister, in another post, denounced that the images received from Rafah are “horrifying.” “It is the unstoppable barbarism, caused by the Zionist scoundrel,” he asserted.

Gil expressed that the genocide continues in full view of the entire international community. "We have seen women, girls and boys murdered, under the orders of Israel and under the complacency of US imperialism that also governs in the European Union," he noted.

"We once again condemn these crimes against humanity. Their perpetrators must be captured, tried and sentenced," he stressed.

And the /top Venezuelan diplomat emphasized: "This is a Nazi regime that is acting before the eyes of everyone." "Enough is enough! The world is not a safe place until the war criminals who rule Israel today are arrested."

In recent hours, shelling by the Israeli army against a refugee camp that was protected by the United Nations in Rafah, in the south of the Gaza Strip, was reported, where dozens of people lost their lives and were injured.

An audiovisual that circulates through social networks showed firefighters putting out the fire caused by Zionist shrapnel, while relief forces removed bodies of people, including children, who were burned alive.
